Building Update

The door count was 16,640 in November compared to 5,009 in November of 2021.

I met with John Tanzi and Derek Knatz on Friday, December 2nd to discuss the next phase of the process. First, we need resolutions to retain both John Tanzi and Park East. If you recall, we have a pre-bond contract and if we decided, a post bond contract with both. Our attorney is drafting both contracts and resolutions, if we decide to retain both parties all of this should be wrapped up at the January Board meeting.

Next, we will work on the site-specific drawings (wiring, plumbing, HVAC, etc) to be sent up to New York State Department of Education for approval in early springtime. The turnaround is estimated at 6-8 months, and we can hopefully begin construction in October/November 2023. While that is happening, we will also be working on figuring out where will go during construction. Shadd and I are going to look at trailers after the holidays to maybe use as office space or new item’s location. There is also a store front next to Amity Ales we are investigating. Derek informed me that we should be able to use the community rooms downstairs throughout half of the project which would alleviate some of the relocation expense of the exercise classes.

I also spoke to the owner of the house directly to the north of the library. Are we still interested in purchasing the property? It would help us tremendously during renovations as well as afterwards.

Shadd and I facilitated an All Staff meeting on Tuesday December 6th. We informed the staff of the ongoing process and potential timeline of the upcoming building project among other topics.

We are expecting the Phone Charging Locker for public use within the next few weeks. We will most likely have it near adult computers. We have also received a new staff copier and expect to have another new copier in the beginning of January.
Shadd and Adrienne continue to look for another Social Worker as Emily our current Social Work Intern is doing great, but we need more of those services for our community.

Local artist Michele Dodd is finishing up a beautiful winter painting for our front windows. We have received many compliments for her seasonal artwork on our windows this past year.

We are getting 21 more Wi-Fi hotspots in our collection as the need has increased for our community.

Shadd is waiting to hear back when I can take the Notary Public Exam.

We have a copy of the newsletter translated into Spanish on the website and a slide on the digital display behind the circulation desk indicating that we have ESL books in the Childrens department. We will be starting Children’s ESL classes in January on Tuesdays. We will also have our first STEM class with our new 3D Printer on Thursday January 26th. Staff members Rob Subject, Victoria Lipman and Taylor Ostrick have worked hard to prepare and familiarize themselves with the new 3D Printer.
