The Amityville Public Library utilizes filtering software and other technology to best meet the Library's Mission, Roles and Policy. The Library will not facilitate access to sites that are unlawful under New York State Penal Code and other legislation or policy. Library staff do not have the ability to disable filters, however, recognition is given to the fact that some sites may be unnecessarily restricted. The Board of Trustees will review any Reconsideration of Website request form at their regularly scheduled meetings. If approved, the decision of the Board of Trustees will be forwarded to the filter provider for their consideration.
